Bureau of Shipping Point Inspection

The Fresh Fruit and Vegetable Inspection service was started in 1917. Until 1922 its authority was restricted to work in destination markets where the inspections were made by Federal Market Inspectors. In 1922 Congress extended the service to shipping points by adding to the authority the words, "when offered for interstate shipment."

When the work was extended to shipping points, Congress provided no additional funds for the expanded service requested by the industry. The Federal Department, working independently, could not collect fees and use them to pay the cost of the service. A plan was developed under which the inspection work at shipping point could be done under cooperative agreements with the states. These agreements provide that the inspectors are to be employed by the states and licensed by the Federal Department. The Federal Department supervises the inspection and certification work for which it is reimbursed by the state.

The operation is a joint Federal-State program entirely supported by fees collected from users of the service. The state collects fees and pays the inspectors' salaries and other expenses of operating the service. Applicable Federal and State laws and regulations and a Federal-State memorandum of agreement (AMS 12-25-A-20 and Amendments) govern its conduct. The Director of Agriculture, State of Idaho and the Chief of the Fresh Products Standardization and Inspection Branch, Fruit & Vegetable Division, AMS, USDA are its leaders.

The demands of the service are voluntary for certification on most fruits and vegetables however, potatoes and onions are under federal marketing orders each requiring compulsory inspection and certification on nearly all shipments. Potato and onion growers and processors also use the Federal-State Inspection Service to insure contract specifications are met and satisfy demands of sale at the farm gate.

The Bureau maintains the Boise headquarters staff along with four district offices, strategically located in the production areas. Present locations are; Caldwell, Burley, Blackfoot and Idaho Falls.
